Mr. Stevens stated it is a side mount trail mower, it fastens to the back of the tractor but mows to the side. Holt stated it came up during the Drainage Board meeting that they borrow one of the highway tractors to mow grassy waterways. They can't mow the top of the bank because there is not room to do the three passes. We asked if they could use a tractor that had a side mount mower and a rear mower. They were not sure if such a thing existed, but with 234th Street and some of the wider grassy right-of-ways that the Highway Department is maintaining, you send a crew of three different tractors to mow the roadside and possibly you could use a tractor that is doing 2/5 cuts at the same time as well as helping the drainage board. Dillinger stated it was supposed to come up today if he did not do certain things. He did not do 100% of those, but he did get the insurance money and he has started the process of cleaning up the house. Mr. Kiphart has

agreed it would be inappropriate for us to enforce it right now and to wait and see how much further he gets in 2 weeks. Since the last meeting a fence has been installed, a commercial dumpster and a homemade dumpster have been brought in. One of the dumpsters is for recyclable materials and the other dumpster is for trash. He has been working on the clean up of the house. It is going to be slow. Clark motioned that we have evidence of this site being cleaned by October 22, 2001. Holt stated he does not want to give a deadline if he is working on it. We have a nurse from ICM who comes here every Thursday and she works with the employees to make sure they have optimum use of their benefits. She provides authorization for any inpatient care, outpatient surgery, home health care or rental of medical equipment. She has saved Hamilton County \$551,819.98 for the last 12 months. Her fee is \$3.05 per employee per month. We have approximately 550 employees on the plan which is an approximate cost of \$1,700 per month. Clark motioned to approve the ICM Contract. Holt seconded. Motion carried unanimously.

Economic Development Council: (Tape 2, #290)

Mr. Graham Toth, Central Indiana Strategy Project, stated the purpose of this project is to help those parts of the State that do not have a regional economic development strategy to put a strategy in place. The Central Indiana Strategy project is an economic development and community planning tool that matches Central Indiana=s assests with the hopes and desires of the citizens in the region. The Central Indiana region is defined as Boone, Hamilton, Hancock, Hendricks, Johnson, Madison, Marion, Morgan and Shelby counties. Mr. Toth asked if the Commissioners would be willing to nominate 6 individuals from Hamilton County to be delegates to a strategy committee. There would be no commitment in terms whether you were bound to the decisions of this committee. We want a committee to contemplate the various analysis the staff has but together from proposals heard, draft a concept plan. The committee will bring the plan back to the county to determine if the county would ratify that plan. The purpose in the long

run is three fold. We have had MAGIC meet for some years to bring leaders together, but did not move as far along to formulate a strategy for the region. Secondly, if you are comfortable with the draft it could be recognized by the Economic Development Administration, if you choose. The advantage would be that there is funding available for counties who are under economic distress. The third thing is as well as having a plan certified, if the Commissioners choose from these 9 counties, they could create an economic development district. This could be a board or commission structure under an existing organization. Holt asked what is the name of the group that the Hamilton County Alliance belongs to that we make an annual contribution to for economic development in the region? Mr. Toth stated it was called the Indiana Regional Economic Development Partnership. They have changed their name last week to the Indy Partnership. That group is focusing on marketing, they are not focusing on product development. Holt asked what do you think the cost to Hamilton County would be to endorse participation? Mr. Toth stated in this project the cost is zero. We have raised the funds. Holt motioned that the Hamilton County Board of Commissioners endorse participation in this project. Clark seconded. Motion carried unanimously. Dillinger suggested each Commissioner give 2 names to Mr. Swift to forward to Mr. Toth. The Commissioners will ratify the list at their next meeting.

Precinct Changes: (Tape 2, #799)

Ms. Kathy Richardson, Voter Registration, presented a preliminary list of precinct changes by townships. Ms. Richardson requested to come back to the Commissioners on October 22 with the final version. Ms. Richardson requested approval to share the changes with party officials. Holt motioned to authorize Ms. Richardson to proceed with the numbering sequence in all of the Townships other than Clay Township. Clark seconded. Motion carried unanimously.

Jackson Township Assessors Building Lease Continued:

These dogs have killed another neighbor=s dog at 109th Street. A pit bull and a two rottweilers have attacked other dogs. Deputy Farley suggested she talk to Captain Wyler.

Exemptions Department Retrofit:

Dillinger stated Ms. Mills has requested the Commissioners consider moving the Treasurer=s supply cabinets so she can get more room for the Exemptions Department. Ms. Mills stated she feels it will take Commissioner=s approval. The Treasurer=s office and the Exemptions department share office space. When you come in to the door of the Exemptions Department there are constituents actually sitting right next to the door. The back room and half of the room are the Treasurer=s office. We are asking the storage cabinets be moved to the back room and the supply cabinets moved so the Exemptions Department could get another 6' of the room. Dillinger stated he has looked at the rooms and there is no reason this can=t be done. Holt asked if he talked to Ms. Wilson? Dillinger stated he has been over to her office twice and she has not been there and none of her staff can talk to him about it. Ms. Mills stated the back room sits empty other than during the State Board of Accounts Audit. Dillinger stated we are giving permission to Ms. Mills to do this and he directed Mr. Swift to send Ms. Wilson a letter. Clark motioned to ask Mr. Swift to facilitate this action. Holt seconded. Motion carried unanimously.
